WELCOME TO BRIGHTER DAYS 2024

Hello and welcome to the 2024 Brighter Days Festival. As I put pen to paper, I feel like it was only yesterday we were here at Pioneer Park for our very successful 2023 festival. If you are new to the Brighter Days family this year – a warm welcome and thank you for being part of this very special event.

Organised by our dedicated committee in this beautiful region and supported by hundreds of volunteers, we come together on the Labour Day weekend each year to raise much-needed funds for very special children's charities and we have an extremely good time whilst we do it! Our 3 day program is jam-packed with live music, fun events and good times with family and friends. Check out the program on pages 8, 9, 10 for all the details.

A lot has happened since we last spoke. We have strong messaging and awareness for Sudden Unexplained Death in Children (SUDC), and we are encouraged by the advancements in Epidermolysis Bullosa (EB) research.

In May 2023, a significant milestone was achieved with the approval of the first therapy to treat EB by the United States Food and Drug Administration. Concurrently, various treatments for EB, including the clinical drug trials for Filsuvezm, are undergoing evaluation across 50 clinical centres spanning more than 20 countries.

This breakthrough signifies important progress. While the Brighter Days Foundation did not contribute funding to this specific drug's development, we view it as a positive step forward for the entire EB community which you are all a part of and which we very much support. Your contributions, generosity and donations are helping to improve the outcomes for those living with EB, while keeping trials and research pushing and striving to find a cure. #FightEB

DEBRA Family Support tells us that since the 2023 Brighter Days, there have been 3 more births of babies with severe EB, a decrease from the previous year which is a positive trend. Additionally, there is an expanded program aimed at providing increased support to EB families. Notably, DEBRA has launched a new Podiatry program in Queensland to complement existing programs in NSW and Victoria. Furthermore, their psychology and counselling services have expanded to serve more EB families. The respite program has also grown, accommodating an additional 5 families, totalling 15, allowing EB families to take much-needed breaks from medical appointments and hospitalisations. In addition to the annual Mum's respite, they have also introduced respite opportunities for 12 Dads, offering them essential time away with other Dads of children with EB.

The Brighter Days Foundation extends its support to SUDC, and through the Cooper Trewin Foundation, we contribute funding to ongoing research efforts. Currently, a two-year genetic testing study is underway with Boston Children's Hospital, yielding promising results. The ongoing research holds the potential for identifying genetic markers that can be tested at birth; an immensely promising prospect. Additionally, the Bairnsdale Hospital Sleep Safe Swaddle program continues to thrive, providing new mothers with safe sleep options and educational resources.

We are looking forward to welcoming representatives from our charities along with several of our EB families at Brighter Days 2024 so if you see them around be sure to say hi and have a chat.

The Brighter Days Foundation wishes you all the very best for a fantastic few days filled with fun and fundraising while enjoying the good company of family and friends. We are proud to showcase a remarkable event in the picturesque Bright and express our gratitude to the Alpine Shire for their support.

Have a great weekend.

Cheers,
Paul

DEBRA AUSTRALIA

DEBRA Australia is a not for profit volunteer based organisation that does not receive any direct Government funding and works tirelessly to support those living with a group of rare skin blistering disease called Epidermolysis Bullosa (EB). DEBRA Australia assists in improving the lives of children and adults living with EB, a debilitating and sometimes fatal condition, by providing necessary support services, medical supplies, aids and equipment, assistance with transition to independent living and research focusing on different aspects of EB.

COOPER TREWIN FOUNDATION

The Cooper Trewin Foundation emerged following the tragic loss of Cooper Trewin on February 6, 2010, at the tender age of 16 months. Cooper's sudden and unexplained passing prompted the establishment of the foundation, dedicated to supporting research into the underlying causes of such unexpected deaths in children.

As parents, receiving the news from a pathologist after an autopsy that our seemingly healthy little boy had no apparent illness, injury, or disease left us with myriad unanswered questions. In response, we decided to initiate research efforts, aiming to contribute to the discovery of a cause for such heartbreaking events.

From its modest beginnings, we have witnessed Brighter Days evolve into the iconic Australian festival it is today, a testament to the dedicated efforts of numerous volunteers. The funds raised through Brighter Days have directly contributed to saving children's lives, supporting initiatives such as the Cooper Trewin Brighter Days Neuroimaging Study, Brighter Days Genetic Screening, and a Safe Sleep Program based at Bairnsdale Hospital.

We are making a tangible difference, and through this research, Cooper is playing a vital role in changing the world. We express our gratitude for your efforts in fundraising for these meaningful charities, helping to preserve Cooper's legacy.

CURE EB CHARITY FOUNDATION

Curing EB is not an "If", it is only a "When".

At Cure EB Foundation, our mission is clear and unwavering: To provide hope, treatments and ultimately, a cure for Epidermolysis Bullosa (EB). In 2013 the Wilkes family and friends began raising funds to fight against EB. During that time, the Australian team behind Cure EB have raised more than \$6 million for the cause. A decade ago, only two meaningful medical trials were occurring across the globe - today, more than 40 clinical trials are underway world-wide. Cure EB partners with like-minded, grass-root organisations to ensure a co-ordinated, no-waste approach and has funded dozens of projects in all four corners of the globe. Funds are allocated by an independent Scientific Advisory Board. We've come a long way since our humble beginnings thanks to all of our loyal partners, like Brighter Days and supporters and look to continue leading the way in research programs, and making treatments readily available in Australia.

From the early breakthrough success to the solo ventures and everything in between, this epic show will celebrate the musical milestones that have solidified both TAXIRIDE and JASON SINGH's place in Australian music history.

RUSSELL MORRIS

Russell Morris is one of Australia's most enduring singers. A major pop star in the late '60s, he went on to become one of the country's first singer/songwriters. Both ends of his career feature predominantly in the soundtrack to the movie **The Dish**. Russell Morris' career started in September 1966 with the formation of the Melbourne group **Somebody's Image**, which rose to prominence with a local hit version of the Joe South song "**Hush**." Morris was convinced to leave Somebody's Image for a solo career. His manager/producer, local music identity Ian Meldrum, spent unprecedented hours and money to create a seven-minute production extravaganza around a song called "**The Real Thing**."

Once the result was released to shocked radio programmers who had never been asked to play such a long Australian single before, it was up to Morris' personality, singing, and performing talents to make the record work. It reached Australia's number one spot in June 1969. Without any promotional support from Morris, "**The Real Thing**" reached number one in Chicago, Houston, and New York.

The second single -- "**Part Three Into Paper Walls**" ("The Real Thing" revisited) and "**The Girl That I Love**" (a pop ballad more indicative of what was to come) -- became a double-sided number one hit, the first time an Australian artist had scored consecutive number ones with their first two singles. Morris, in the meantime, had travelled to the U.K. to help promote the release of "**The Real Thing**." Russell Morris had now decided to concentrate on his own song writing and with the cream of Australian musicians, spent almost a year painstakingly recording and re-recording what became the **Bloodstone** album. It was one of the first Australian albums of its kind, the first from an Australian singer/songwriter, and a whole world away from the extravagant "**The Real Thing**." The hit single from **Bloodstone** was the resonant, romantic "**Sweet Sweet Love**."

We are two nurses from Bright who recently had the amazing opportunity to volunteer our nursing skills in Cambodia. This experience saw us working in both orphanages and remote communities providing healthcare. The experience was confronting, impacting us both greatly. Cambodia is a third world country, and the standard & availability of healthcare is far below ours. Once home, we decided that we wanted to help, and collecting cans (uncrushed) from our local area to be recycled at 10c a can was a good place to start. All funds that we raise through Cans for Cambodia will be going directly to our cause. We are self funding our return to Cambodia in 2025, where we will deliver the funds raised and supplies to those who need them the most.

WASTE WARRIORS RECYCLE RIGHT

Waste Warriors

Learn to rethink your waste, recycle right, and send less to landfill!

As part of our ongoing commitment to improving our waste management at the festival, Brighter Days is pleased to welcome some much needed help again this year from our Volunteer team – BDF Waste Warriors. The team will be on site to help encourage the appropriate sorting of recyclable materials and can help you if you're not sure how to recycle right.

Our Waste Warriors team will be joined this year by Sarah and Bree from the Cans for Cambodia campaign. You can help by making sure your UNCRUSHED CANS are only deposited in the yellow top recycling bins.

Please help keep the festival grounds looking clean by disposing of your waste correctly throughout the event and especially before you leave each night.

All rubbish left on the ground has to be collected by Brighter Days volunteers so make sure you do the right thing and don't leave anything behind.

Disposing of left behind chairs has become a significant waste management issue for the committee..

IF YOU BRING A CAMP CHAIR, PLEASE TAKE IT HOME WITH YOU AT THE END OF THE EVENT!

Thank you for supporting us to RECYCLE RIGHT!
