

Brighter Days Impact 2024/25

I could not do my life without the help and support from DEBRA (Australia).
– EB Family Member

Brighter Days Foundation has been an incredible supporter of DEBRA Australia for many years. On behalf of our Board, staff, and the families we support - a HUGE thank you once again for your kind generosity which enables us to fulfill our mission - To ensure that all people living with EB have access to the best quality support and medical care, raising awareness, and driving the effective development of treatments and a cure for EB.

Thanks to your vital donations, our Family Support Program is now able to reach more EB families than ever before. Over the last year, this program has funded essential medical supplies, aids, and equipment, which has increased the quality of life of these special families in need.

We have also been able to offer more families support through our in-hospital clinics and outpatient Nursing Program.

Our Respite and Psychology Programs continue to grow, with a combined number of over 60 families and individuals from our EB community receiving support from these crucial programs.

At DEBRA Australia, our vision is a world where no one suffers from the painful genetic skin condition Epidermolysis Bullosa (EB). With your support, we are moving closer to achieving this goal.

Thank you.

\$1.6 million+

in funds raised to date by the Brighter Days Foundation for DEBRA Australia!

96%
